Community Vision and Policies

1PC was created with one simple concept. Although simple, the concept is so powerful that it can and will build one of the most profitable meme coins ever created. You are joining a community built on the belief that an ACTIVE, UNITED, and INVESTED community is the most powerful marketing tool in existence.

Community Policies

- When representing the 1PC community, always act with honesty and integrity.
- Help the community grow immediately by bringing one new member who embraces the 1PC vision and policies.
- Stay ACTIVE by posting, tweeting, retweeting, and participating within reason. Be transparent with your mentor regarding availability and apply any special skills you possess.
- Every member MUST invest and remain invested in 1PC after launch for as long as they are part of the community (\$1 minimum).

Accountability & Enforcement

All community members have an obligation to hold each other accountable. There are no exceptions to these policies. Any member determined to be uncommitted or unwilling to comply with these policies will be removed from the community promptly and without exception.

II

Community Structure

The 1PC Chief appoints 10 Executives. Each Executive builds a team of 10 through cascading recruitment. Once an Executive's team is formed, their responsibility is ensuring consistent adherence to community policies.

Members who build their own team of 10 become Managers and oversee those teams. Members remain new members until achieving Manager status.

Issues raised by Managers are addressed by Executives. Issues raised by Executives are addressed by the 1PC Chief.
